

"THE GODS TRUTH"

Down south the tactics used by the police are the dogs and the water hoses, but up north here at Girard College the police have a new thing going for themselves; Its called carbon monoxide-a deadly gas which comes from the exhaust pipe of an automobile and can kill you instantly if enough is inhaled into the lungs.

It all started on Saturday morning-9/4/65-about 12:45 a.m. when a group of demonstrators were staging a 72 hour sleep-in as a protest against the segregated cesspool in the heart of the Negro Community which wrongfully bars poor little helpless orphans away because of their dark skins. When two police jeeps deliberately backed their jeeps up against the barricade with the exhaust pipes aimed straight at the demonstrators' faces while they were trying to sleep; clogging up the air and causing coughing and watery eyes, while police on the side just stood there with hatred on their faces and the look of a mad dog waiting impatiently for the command of his master to attack. This was one of the many brutal happenings that causes affliction to citizens all over the world while struggling to gain equal rights. As a result of all of this, I had to be rushed to St. Luke's Hospital and given emergency treatment in order to gain normal breathing once again. Father Zimmer arrived on the scene, also a reporter from the Philadelphia Inquirer and they witnessed this brutal act. Proceeding this, Reverend Lorenzo Sheppard arrived and demanded this Naziism be stopped immediately or he would call the police Commissioner; but the police only laughed and cussed him at first, but the police later stopped the motors.

This went on for four hours-from about 1 a.m. until 5 a.m. Father Zimmer remained with the demonstrators until most of the tension wore off of the police, then he left about 6:30 a.m. Preceding all of this Stanley Vaughn a demonstrator was kicked by an inspector and called all kinds of profane names while two others stood over him while he was lying down, and his sign taken away from him and torn up, which read-"We will sleep here forever if necessary, to gain freedom and the integrating of Girard College".

The demonstrators names are as follows:

1. George Brower
2. Stanley Vaughn
3. Henry Reddy
4. Lester Green
5. Lester Brewington
6. Richard Watson
7. Kenneth Barker
8. Anthony Kennedy
9. Richard Thmes
